Weaponized Art: *INK 180* and the Beauty of Second Chances— Documentary Screening

Chris Baker

Ms. Liza Smoker

Participants view the documentary film *INK 180* and participate in a Q&A session with the film's star, Chris Baker & Ms. Liza Smoker of the John J. Brunetti Human Trafficking Academy. While tattoos are a sign of individual expression, for victims of sex trafficking, or those escaping gang life, these markings have other consequences. Through Chris Baker's INK 180 shop doors files streams of changed individuals who are desperate for a new identity. They seek a man they have heard could change their lives forever and does all his work for free.
